How to Authenticate This Official PDF Transcript

This official **STANFORD UNIVERSITY** PDF transcript has been transmitted electronically to the recipient and is intended solely for use by that recipient. It is not permissible to replicate this document or forward it to any person or organization other than the identified recipient. Release of this record or disclosure of its contents to any third party without written consent of the record owner is prohibited.

This official transcript has been digitally signed and therefore contains special characteristics. This document will reveal a digital certificate that has been applied to the transcript; for optimal results, it is recommended that this document be viewed with the latest version of Adobe® Acrobat or Adobe Acrobat® Reader. This digital certificate will appear in a pop-up screen or status bar on the document and display a blue ribbon that declares that the document was certified by Stanford, with a valid certificate issued by GlobalSign CA for Adobe®. This document certification can be validated by clicking on the Signature Properties of the document.

The Blue Ribbon Symbol: The blue ribbon is your assurance that the digital certificate is valid, the document is authentic, and the contents of the transcript have not been altered.

Invalid: If the transcript does not display a valid certification and signature message, reject this transcript immediately. An invalid digital certificate display means either the digital signature is not authentic, or the document has been altered. The digital signature can also be revoked by the transcript office if there is cause, and digital signatures can expire. A document with an invalid digital signature display should be rejected.

Author Unknown: Lastly, one other possible message, Author Unknown, can have two possible meanings: the certificate is a self-signed certificate or has been issued by an unknown or untrusted certificate authority and therefore has not been trusted; or the revocation check could not completed. If you receive this message, make sure that you are properly connected to the Internet. If you have a connection and you still cannot validate the digital certificate online, reject this document.

The current version of Adobe® Reader is free of charge, and available for immediate download at http://www.adobe.com.

KEY TO STANFORD CENTER FOR PROFESSIONAL DEVELOPMENT RECORD OF COMPLETION

Key:

S	Satisfactory – A or B equivalent	This Record of Completion does not represent Stanford University Units.
A	Excellent	
B	Good	
See Axess	Grade recorded by Stanford University, available at http://axess.stanford.edu	Alteration or forgery of this document is a criminal offense. A black and white document is not an original and should not be accepted as an official institutional document.
Audited Course	Enrolled for video access only	
Grade Unmarked	Course requirements not yet completed	

Note: The P (Pass) notation was used prior to Summer 2009-10. The notation was changed to S (Satisfactory) as of Jul 01, 2010.

Pursuant to the Family Education Rights and Privacy ACT of 1974 this information cannot be released to a third party without written consent of the student.

Professional Development Units

The Stanford Center for Professional Development is a registered education provider of the Project Management Institute (Provider #1963). Professional Development Units (PDUs) may be earned for each course taken as part of the Stanford Advanced Project Management Program and the Strategic Decision and Risk Management Program to maintain certification as a Project Management Professional (PMP®).

Please use the Project Management Institute activities numbers below to claim PDUs at http://www.pmi.org for eligible completed courses:

**How to authenticate a Record of Completion from
the Stanford Center for Professional Development**

Attn Mac users: The document you are viewing utilizes Adobe's secure certified PDF technology and therefore may only be authenticated using the free Adobe Reader or Adobe Acrobat versions 9 or higher. The default Mac preview application may display the document but does not allow the end user to correctly validate the authenticity of the document.

This document has been digitally signed and therefore contains special characteristics. When this document is viewed through Adobe Reader versions 9 or higher or through Adobe Acrobat versions 9 or higher, it will reveal that a digital signature has been applied to the document. Adobe Reader versions 9 and Acrobat versions 9 and higher use a blue ribbon across the top of the document to indicate document authenticity and validity.

Document Validity

Valid Signature: The document's contents have not been changed or altered in any way. Also, when the pop-up screen displays a message that the digital signature is valid it means that the author of the document is known to the certification authority and the person or institution represented by the digital signature is true and authentic.

Invalid Signature: The digital signature is not authentic, or the document has been altered. Sometimes the digital signature has been revoked for some reason, or it has expired. A document with an invalid display should be rejected.

Author Unknown: There are two possible meanings: the digital signature cannot be validated due to a disconnection to the internet, or the digital signature cannot be instantly validated via the internet. If this message is received make sure there is proper connection to the internet. If there is connection and the digital signature cannot be validated, reject this document.

Additional Information
A document that contains a digital signature can be instantly validated and will display a blue ribbon on the notification bar across the top of the Adobe Reader. On older versions of the Adobe reader, the blue ribbon will be displayed on a pop-up screen and in the lower left corner of the frame of the application. The blue ribbon symbol is your assurance that the digital signature is valid, authentic, and the contents of the document have not been altered.

Note on Pop-up Screens
To activate the pop-up screens in either Adobe Reader or Adobe Acrobat to view the status a document that has a digital signature (described above) open the application first, then open the document. Sometimes browsers will trigger Adobe Reader or Adobe Acrobat as a helper application, failing to activate the application's full functionality.

For More Information
You may contact the Stanford Center for Professional Development if you have additional questions about this digital signature, the authenticity of this document and the means by which you received this document.
